

HTRC PRESENTS...

BACK TO SCHOOL BEHAVIORS

WEBINAR

SEPT. 14 12-1PM CST

Register here: <https://redcap.kumc.edu/surveys/?s=DWATMF7HN3>

FACILITATED BY: University of Kansas School of Medicine's Department of Pediatrics Behavioral Health and the Department of Psychiatry and Behavior Services.

The event is co-sponsored by HTRC and KU Telehealth ROCKS Schools.

ABOUT THE EVENT:

As the 2020-21 school year begins, the HTRC and KU Telehealth ROCKS Schools have partnered to provide a resource to those who work with children in schools and other settings. In addition, to discussing the provision of behavioral and mental health services through telehealth, this webinar will bring experts to the table to discuss your questions and concerns around children and their behavioral and mental health needs during the back-to-school process.

We want to provide an opportunity for you to ask your questions and bring your concerns as the new school year begins.

Please provide your feedback during the registration process on topics and questions you might have, as well as insight into how your school or organization is approaching the back to school process and providing behavioral and mental health support to children.
