Overview for Today’s Session

• Introduction to School-Based Health Programs in MO

• Back-to-School Update
  • Dr. Andrew Underwood, Superintendent, Belton School District

• Other 2020/2021 back-to-school updates

• Q&A & resources
THE BIG SIX
The Show-Me School-Based Health Alliance has expanded the types of school-based health programs to represent the six types of programs that exist in districts throughout Missouri.

1. Comprehensive School-Based Health Center
Comprehensive School-Based Health Centers are a partnership between schools and community health organizations that deliver primary health care, behavioral/mental health care, oral care, and vision care coordinated by the center—even if they are delivered by different providers.

2. School-Based Health Center
School-Based Health Center (SBHC) programs are partnerships between schools and community health organizations that deliver primary health care, at minimum, through a fixed site on a school campus.

3. School-Linked Health Care
School-Linked Health Care programs are linked with schools to coordinate and provide health care for students. Services are delivered off campus through a fixed site near the school.

4. School-Based Mental Health Program
School-based mental health programs are partnerships similar to SBHCs but only provide behavioral/mental health.

5. Mobile Health Care
Mobile Health Care programs are without a fixed site that rotate a health care team through a number of schools, including mobile van/bus/clinic on wheels that parks on or near school property/campus.

6. Telehealth
Telehealth programs deliver 100% of school-based health care services using telemedicine technology.
Dr. Andrew Underwood
Superintendent  | Belton School District
Dear Families and Guests,

For the health, safety and well-being of our students, staff, and communities, we are closing our buildings until further notice.

However, there are options for you to visit a health clinic during this time. See below for the location and times.

We encourage everyone to keep safe! Should you need to contact someone with the school district or a school, please email communications@bsd124.org.

Making a Delivery? Please call Steve Troutwine: 816-946-1968

Temporary Health Clinic: 816-331-4000

Location
Southland Primary Care
17067 S Outer Road, Suite 100
Belton, MO 64012
Monday: Call for appointments
Tuesday: Walk-ins welcome, 9-5
Wednesday: Call for appointments
Thursday: Walk-ins welcome, 9-5
Friday: Call for appointments

Back-to-School 2020/2021 Updates
2020/2021 School-Based Health Program Operations

- Closed to students/community because school building will remain closed; some moving to telehealth operations
- Open to combination of staff/students/community even though school building will remain closed
- Open with significant changes to operations, especially for mobile programs (e.g., oral health, vision, & screening programs)
Role of SBH Programs to Support School Reopening

- Closing the immunization gap critical to re-opening schools
- Providing COVID testing if approved (or any other diagnostic testing)
- Supporting tracking cases & quarantine efforts to reduce exposure & spread
- Providing preventative & urgent care & behavioral/mental health services to address gaps & reduce ED visits
- Providing medical supplies (i.e. PPEs, thermometers, etc.) that schools/school nurses may not be able to access
- Supporting the establishment of school cleaning & sanitizing procedures
- Educating staff on the symptoms of COVID-19, helping to establish protocols for screening & assessing symptoms & providing basic health education
COVID-19 Support & Education: Challenges & Emerging Practices

- Communication & collaboration with local health departments
- Support by providing testing or connecting to testing
- Support school nurse staff with contact tracing
- Provide education & information to teachers and school staff
Immunization Gap & Flu Vaccinations: Challenges & Emerging Practices

- Outreach to parents via social media, email, text, etc. to stress importance of vaccines for students to stay in school

- Develop marketing campaign for flu vaccinations – editable social media posts available here from Colorado Association of School-Based Health Programs

- Drive-thru vaccine drive could replace traditional vaccine clinics – toolkit available here
Communication: Challenges & Emerging Practices

Parents/Families

• Proactive outreach & education, such as virtual town halls
• Use multiple channels—social media, text, & email, etc.
• Consider mental health & well-being

Teachers/Administrators/Providers/Staff

• Consider mental health & well-being
• Establish a culture of virtual collaboration
Examples & Key Resources

• [Addressing Social/Emotional Health](#) – Lee’s Summit School District video

• [Planning for the Next Normal at School](#) from Kaiser Permanente & several national partners
This playbook prioritizes considerations of policy, equity, and family and community engagement, which can all contribute to a successful reopening strategy. Future versions of this playbook will also include funding considerations to help ensure all schools can fully take advantage of these resources.
Examples & Key Resources

• **Addressing Social/Emotional Health** – Lee’s Summit School District video

• **Planning for the Next Normal at School** from Kaiser Permanente & several national partners

Webinars

• National School-Based Health Alliance – [upcoming webinars](#) & [archived webinars](#)
Next Steps

• Kindly complete an evaluation of today’s session!

• Watch for updates on additional Listening & Learning Sessions based on your feedback

• Access recordings & materials from all Listening & Learning Sessions as well as resources related to COVID-19

• Connect with us if you have additional questions

• Join us for our next virtual event in November!
